

Securities Litigation

Since 2003, Babbitt, Johnson, Osborne & Le Clainche, P.A., has built a successful securities litigation practice on behalf of investors who suffered losses as a result of possible investment fraud and misrepresentation. While past results do not guarantee future success, dozens of our securities clients have actually recovered amounts greater than their initial investments. While we can make no assurance of similar results, our experience has convinced us that investors often stand a better chance of success in individual suits and arbitration rather than in accepting a blanket settlement.
